

MIQUEL GÓMEZ CORRAL

Junior AI Automation Engineer, Valencia, Spain

Computer engineer specialized in **Artificial Intelligence and Machine Learning**. During my Bachelor's and Master's in AI (UPV), I have worked on optimization, machine learning, computer vision, and language models (**LLMs**), developing projects ranging from data pipelines and digital imaging to agents and **RAG** systems.

I have applied this knowledge in several companies in the sector, **automating processes** and integrating **AI solutions** that deliver real value, proving the strength of my education.

Currently, I seek to continue growing as an engineer in the AI and Machine Learning sector, where I can contribute and learn to the fullest.

EXPERIENCE

- AI Automation Engineer** *Vidext* Valencia, Spain, Dec 2025 – Present

 - Expert in **automation** and artificial intelligence
 - Developing **pipelines** and automation processes for tasks, resulting in saved time and money.
 - Agent orchestration, LLM integration, and file management.
 - Contribute AI knowledge to improve company processes and develop new solutions.

Tecnologías: Git, React, Next.js, TypeScript, Tailwind, Vercel AI SDK, Prompt Engineering, Braintrust, Agents (MCP, tool-use) ...
- AI Engineer** *Solver* Valencia, Spain, Jan 2025 – Dec 2025

 - Study of client needs and data.
 - Development of **AI models** from scratch.
 - Research of **technologies** the company requires.
 - Fine-tuning of language models and computer vision.
 - Bachelor's thesis on OCR models and document information extraction.

Tecnologías: Python, PyTorch, Scikit-learn, Pandas, NumPy, Databases ...
- University Internship:** *Vidext* Valencia, Spain, Jun 2024 – Sep 2024

 - Learned to develop web applications using **React** and **Next.js**
 - Built the company's landing page and an internal application for employee use

Tecnologías: React, Next.js, TypeScript, Tailwind, Zustand
- Other:** *Image Editor, Teacher, Waiter ...* Valencia, Jun 2021 – Jun 2024

 - Worked in various roles to support my family and gain professional experience
 - Experience in restaurants, as a freelancer and as a tutor

EDUCATION

- Master: AI, Digital Imaging, Natural Language** Valencia, Sep 2025 – Dec 2026

Universitat Politècnica de València (UPV)
- Erasmus: Computer Engineering** Switzerland, Sep 2024 – Jan 2025

Ecole polytechnique fédérale de Lausanne (EPFL)
- Bachelor's: Computer Engineering** Valencia, Sep 2021 – Jun 2025

Universitat Politècnica de València (UPV)

ENVIRONMENTS & TECHNOLOGIES

- AI / Machine Learning:** PyTorch | Transformers (HuggingFace) | Scikit-learn | LangChain/Lang-Graph | OpenCV | Reinforcement Learning | RAG | Fine-tuning | Agents (MCP, tool-use) | Vercel AI SDK | Prompt Engineering | Braintrust ...
- Data / Backend:** Pandas | NumPy | Matplotlib | Plotly | FastAPI...
- Web Development:** React | Next.js | Tailwind | Zustand...
- Environments / DevOps:** Docker | Git | Linux | Unity.
- Languages:** Python | TypeScript | JavaScript | Java | C | C++ | C# | SQL
- Others:** Photoshop | Premiere

CERTIFICATIONS

HuggingFace — Deep Reinforcement Learning Course.

SKILLS

- Open to teamwork.
- Leadership capacity.
- Eager to learn and grow in my IT career.
- Problem-solving and analytical skills.
- Personal projects and continuous learning on my own time.
- B1 driving licence and own vehicle.

ACHIEVEMENTS

- Best academic record award** in my cohort for the 2022–23 academic year.
- ARA distinction** (High Academic Performance) in the degree programme.
- +20 honours distinctions** in my Bachelor's and Master's degrees.
- Honours mention** for the Bachelor's thesis (TFG).

LANGUAGES

- Spanish & Valencian**
Native.
- English**
B2 – Cambridge Certified.
